The Arts is the learning space where we get to express ourselves creatively through drama, music and dance.

We are learning about the elements of movement and music.

We are learning to create movement and action by showing contrast, diversity and using the environment for ideas.

The Arts Code

- Always give things a go
- Respect yourself, others and property
- Take a risk and express yourself
- Show encouragement

We created our own stories through movement and dance showing difference in size, shape and levels.

We work in groups to share ideas and form these into stories through drama.
