

Term 3 in Year 2

Welcome to term three! We have had a busy start to the term and have been learning so much! Something we really enjoy doing is investigations during the week. This gives us the opportunity to learn as we play and create fantastic things in our different learning spaces.

Mathematics

During Mathematics we have been learning about money and all of the different Australian coins. We are excellent at counting and ordering coins. We have also been learning about the months of the year and how to use a calendar.

English

In English we have been learning about persuasive texts this term. We have also been focusing on improving our punctuation and using adjectives to make our writing more interesting. In reading we are focusing on using our different reading strategies to help us decode tricky words. We are also practising using expression when we read aloud.

Religion

In Religion this term we have been celebrating our differences. We think that it is really special that God created each of us with different talents and gifts. We have written some beautiful prayers thanking God for the gift of our bodies.
