

Welcome to Year 5 2018. We have had an absolutely brilliant start to the year and we are settled in and working hard. In English, we are working on creating interesting, well-structured paragraphs. Proofreading is an important skill we are also developing and of course we are striving to improve our spelling. We have already learnt so much in Digital Technology and are really excited about creating interactive Anti Bullying posters using green screen and augmented reality technologies. Please use the QR code below to have a look at our iPad User Agreement if you have not already done so.

In Maths, we have been reviewing our knowledge about 2D shapes and exploring these shapes in 3D objects. We have also been learning about different units of measurement and line graphs. All of this interesting learning is in preparation for the students to commence their first Mathematics Investigation. Stay tuned on Seesaw to see all of our progress.

One of the highlights this term was our awesome assembly that acknowledged the National Day Against Bullying and Violence. All of us put 110% into making sure that the important messages about bullying were presented in a fun and interesting way. If you were unable to attend our outstanding assembly you might like to view our dress rehearsal on Seesaw.

Finally, CAMP was AWESOME. We were challenged in so many ways and we all had a go at some new and exciting activities such as canoeing, raft building, crate climbing, vertical challenges and the flying fox. All of these activities tested our co-operation and team building skills.
